

FAST FACTS

PGi is a global leader in virtual meetings. For over 20 years, we have innovated technologies that help people meet and collaborate in more enjoyable and productive ways. Every month, our award-winning audio, web and video conferencing products bring over 23 million people together in over 5 million meetings, helping many of the smallest and largest businesses around the world be more efficient, mobile and green.

PGi Facts

- In the last five years, PGi has hosted nearly one billion people from 137 countries in over 200 million meetings.
- Our products meet the needs of every type of user, in any industry, with any type of meeting.
- We serve over 40,000 customers and 75% of the Fortune 100™.
- Our virtual meeting solutions are globally available and scalable for any business need.

“Frost & Sullivan views PGi as a key provider and leader in conferencing services and real-time virtual group meetings. The company has established a strong customer base and is building the next generation of online meetings that are focused on making user experiences simpler and more intuitive.”

- Roopam Jain, Principal Analyst, Frost & Sullivan
